

I cannot express to you the difference in my house since the Do Not Call list started. We can eat dinner or watch TV without all those interruptions. The telemarketing was getting way out of control and this has curbed the calls. We received at least 4 to 6 per night, even some as late as 11pm at night. I also received a threat to bond my house from one of these telemarketers. The police took care of that.

DO NOT DISCONTINUE OR CHANGE THIS LAW.

I do hope you are listening. Thanks
